EDUCATION

Fellow , Nevo Network · <i>Tel Aviv, Israel</i>	2021 – 2022
Data Science Fellow , Israel Tech Challenge · <i>Tel Aviv, Israel</i>	2017 – 2018
MSc. & BSc. Computer Engineering , Universidad de Buenos Aires	2011 – 2016

PROFESSIONAL EXPERIENCE

Co-Founder & CTO , Nivii.ai · <i>Buenos Aires, Argentina</i>	2025 – Present
- Co-founded and built from scratch an AI-powered data platform serving large enterprise clients across industries including agriculture, mining, and adtech. - Designed and implemented the entire technical architecture from the ground up, owning all infrastructure and product engineering decisions. - Scaled the engineering team from zero to four, leading hiring, technical interviews, and onboarding. - Helped close three enterprise clients within the first year, contributing to \$500K ARR and reaching profitability above break-even. - Oversee end-to-end technical strategy, from system design and cloud infrastructure to AI/LLM integration and data pipeline development.	
Lead Machine Learning Engineer , Dynamic Yield (MasterCard) · <i>Tel Aviv, Israel</i>	2023 – 2025
- Developed a complete visual similarity recommendation pipeline leveraging computer vision algorithms from HuggingFace repositories and orchestrated by Airflow. Later on, refactored the pipeline using a map-reduce architecture, resulting in a 45x speed improvement. - Refactored existing model training pipelines in Airflow to enhance debuggability and monitoring, and successfully led the migration from Jenkins to GitHub Actions for image deployment. - Collaborated on developing a shopping assistance system that integrated both large language models (LLMs) and computer vision algorithms to recommend relevant products to users. - Created a service to translate SQL tabular data into Prometheus time series, which was then used to develop Grafana dashboards and alerts to further strengthen our infrastructure. - Acted as a liaison between the Data Science and Engineering teams, managing cross-functional projects and coaching data scientists in advancing their algorithm POCs from research to production. - Led the adaptation of a new transformer-based recommendation model from a proof of concept into a production-ready system compatible with our current inference engine, enabling A/B testing against the existing word2vec model.	
Sr. Machine Learning / MLOps Engineer , Outbrain · <i>Netanya, Israel</i>	2019 – 2023
- Main developer and owner of various internal products that help data scientists automate their work, allowing them to deploy Machine Learning models in production at a large scale. - Managed to improve the Data Science cycles speed in the company by 10x by orchestrating the training, deployment and A/B testing cycles through Airflow-based Python-coded tools. - End-to-end responsibilities: backend and frontend development, Data Science research with field-aware factorization machines, MLOps & product management.	
Data Engineer , Namogoo · <i>Herzliya, Israel</i>	2018 – 2019
- Developed and maintained ETL pipelines within a microservices architecture spanning AWS and Azure environments. - Designed and implemented Elasticsearch-based storage for JavaScript static analysis artifacts, enabling security insights across the platform. - Led the company-wide cloud infrastructure migration from AWS to Microsoft Azure.	
Data Scientist Intern , Chorus.ai · <i>Tel Aviv, Israel</i>	2018
Full-Stack Software Engineer , Cactus Apps · <i>Buenos Aires, Argentina</i>	2016 – 2017
Software Engineer , AW Software · <i>Buenos Aires, Argentina</i>	2015 – 2016
Cyber Security Research Intern , Core Security · <i>Buenos Aires, Argentina</i>	2014 – 2015

SKILLS & COMPETENCIES

Technical: Python, SQL, Kubernetes, Docker, Helm, Terraform, Terragrunt, AWS, Azure, Airflow, Elasticsearch, Prometheus, Grafana, CI/CD (GitHub Actions), LLMs, RAG, LangChain, LangGraph, Langfuse, MCP, Computer Vision

Leadership: Team building & hiring, cross-functional project management, stakeholder management, product strategy, mentoring & coaching

LANGUAGES

Spanish (native) | **English** (bilingual – CPE, Cambridge University) | **Hebrew** (fluent)
